

The Kettle Killer!

Steaming Hot Water Taps.

3 IN 1 - delivers 98°C filtered water + regular hot & cold water.

4 IN 1 - all the features of 3 IN 1 with the addition of filtered cold water.

All from just 12p per day.
When tested Pronteau used 0.800kWh over a typical 24h period: 12h held at 98°C, 12h held at 75°C (overnight), 2 litres of water dispensed at 98°C

IT'S CONVENIENT

Each home boils a kettle on average 4 times a day for hot drinks and another 3 times a day for other uses.

That's over 2500 kettle boils each year equating to lots of energy used, lots of water reboiled or thrown away and many hours waiting for it to boil.

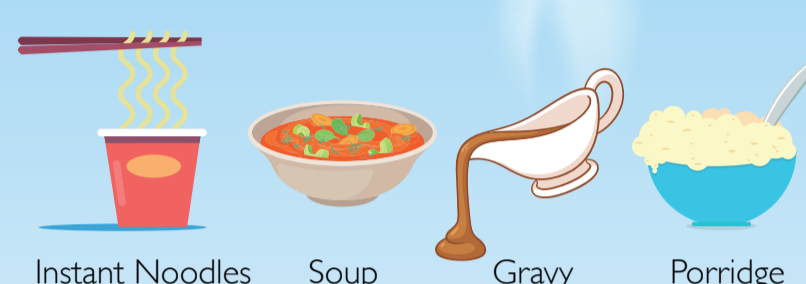

Save time, money, & energy buy a steaming hot water tap for your kitchen.

Use for quick pan filling for cooking:

Ideal for instant convenience food:

Perfect for sterilising & so much more:

IT'S TIME SAVING

According to the Energy Saving Trust each UK household boils a kettle an avg of 7 times per day. If that kettle takes 2½ minutes to boil ...

Time saved with instant hot water on tap.

IT'S SAFE

The NHS treats over 10,000 toddlers with hot drink burns** every year.

Pronteau means:

- No easy reach Kettle.
- Cool touch spout, body and handle.
- Compliant with building regs at 98°C*.
- 2 stage safety handle prevents accidental delivery.
- Easy to use, no more heavy kettles to handle.

*100°C boiling hot water taps do not pass UK building regulations Part G(3).
**The Children's Burns Trust.

FILTERED WATER ON TAP

- 60% of UK households live with lime deposits from hard water.
- Limestone deposits increase when water is heated.
- Filtering water reduces build-up.
- Pronteau uses filtered water only to boil.
- Better Taste.
- Less scum deposits in hot drinks.

REDUCE PLASTIC WASTE

Pronteau could help you save* 2920 plastic water bottles each year!

**13 billion plastic bottles end up in landfill each year in the UK. *If you currently buy your water in 1/2 litre bottles PRONTEAU 4 IN 1 could help you save 2920 bottles each year. A great contribution to the environment.
